## Extended Follow-up Support Packages

### **A little refresher can get your little one back on track...**

Thank you again for trusting me with your precious child. It has been a sincere pleasure helping you give them the beautiful gift and skill of sleep!

Over the time I have been consulting, I have found that some clients have had questions a few weeks, months, or even a year or two later.

If I don't hear from you, I will assume that life is one sleep filled dreamy existence for all of you. You might have the odd test from time to time, but simply stick to your new strategy of leave and check as anything else may simply confuse your little one and I would hate to see you have to start all over again.

### **If you do have questions in the future, here is my current pricing\*:**

- \$125.00 for an additional week of WhatsApp & Sleep Log support (must be added within 1 week of completing original sleep package).
- \$25.00 per email question (thread)
- \$60.00 for a scheduled 30-minute call (with e-mail thread prior to maximize our time)
- \$150.00 for a refresher package (includes one hour phone call and one week's email support and any relevant documentation to aid the process)

### **If you would prefer to put me on "retainer" (as many of my families opt to do), here are my current packages:**

#### **OPTION A - \$240**

- 12 email questions OR four 30 minute scheduled calls
- 1 year expiration from date of purchase

#### **OPTION B - \$450**

- 24 email questions OR eight 30 minute calls
- 2-year expiration from date of purchase

#### **OPTION C - \$50/month**

- On-going monthly support
- Includes 2 email questions OR one 30-minute call
- Minimum 2 month purchase to start
- Expires at end of last month purchased

**REFERRAL PROGRAM:** Refer friends & family and receive a Visa Gift Card! Make sure they mention your name (\*referral must become a paying client).

\*Follow-up support covers any changes with ages, stages and phases only, if full package needs to be purchased you can transfer remainder of support package towards the purchase of a new full package.
